At McLeod Eastpointe Chiropractic, we utilize “Open Room Adjusting” in which two or more adjusting tables are side by side and you will often be treated while other patients are in the room. We have found this agreement to have many benefits for our patients. This efficiency allows us to greatly shorten waiting time (most days you will not have to wait at all) and the Doctor’s advice on healthy living is beneficial for all to hear. Personal or embarrassing topics will not be discussed in this open forum, but anything you discuss with the doctor can be overheard by other patients.

If you wish to discuss a private matter with the doctor, please notify an employee at the front desk so you may be seen separately. It is not necessary for you to tell the front desk employee the subject of your discussion.

We have another option for people who do not wish to participate in Open Room Adjusting. Please note that if you make this choice, you may have to wait longer to see the doctor and your choice of appointment times may be limited. If you wish to be adjusted away from the Open Adjusting Room, please notify the employee at the front desk for special accommodations.

“Straight Chiropractors do not engage in the medical practice of diagnosing and treating disease. The chiropractor’s goal is to examine the patient’s spine and should a subluxation be detected, correct it by means of a chiropractic adjustment. The adjustment is not meant to be a panacea for all diseases or a specific treatment for any particular disease. Regardless of what the disease is called, the chiropractor does not offer to diagnose, heal, or treat it, nor does the chiropractor offer advice regarding the treatment of disease.”

I have read, understood, and agree to these terms of acceptance.
